ARTICLES

Gary W. Schott and Steven P. Hamburg The seed rain and seed bank of an adjacent native tallgrass prairie and old field 1

John F. Murphy and Orson K. Miller, Jr. Diversity and local distribution of mating alleles in *Marasmiellus praeacutus* and *Collybia subnuda* (Basidiomycetes, Agaricales) 8

Anne Repellin, Daniel Laffray, Claude Daniel, Serge Braconnier, and Yasmine Zuily-Fodil Water relations and gas exchange in young coconut palm (*Cocos nucifera* L.) as influenced by water deficit 18

Mitchel D. de Beus, Joseph G. Boothe, and Anne M. Johnson-Flanagan Temporal and spatial distribution of BN28 during low temperature acclimation of *Brassica napus* cv. Cascade seedlings 28

Delphine Gandeboeuf, C. Dupré, P. Roeckel-Drevet, P. Nicolas, and G. Chevalier Grouping and identification of *Tuber* species using RAPD markers 36

Tarun K. Mal, Jon Lovett-Doust, and Lesley Lovett-Doust Effect of soil moisture and fertilizer application on clonal growth and reproduction in a tristylous weed, *Lythrum salicaria* 46

Tamara Vares and Annele Hatakka Lignin-degrading activity and ligninolytic enzymes of different white-rot fungi: effects of manganese and malonate 61

Karin S. Pfennig and Jeffrey K. Conner Pollen limitation in an experimental population of the wild radish *Raphanus raphanistrum* 72

Michael A. Ayliffe, Greg J. Lawrence, Jeff G. Ellis, and Anthony J. Pryor Production of a self-inhibitor of urediospore germination in *Melampsora lini* (flax rust) segregates as a recessive, single gene trait 74

David W. Martin and Donald R. Young Small-scale distribution and salinity response of *Juniperus virginiana* on an Atlantic Coast barrier island 77

F.X. Sans and R.M. Masalles Demography of the arable weed *Diplotaxis erucoides* in central Catalonia, Spain 86

Carolyn Howes Keiffer and Irwin A. Ungar The effects of density and salinity on shoot biomass and ion accumulation in five inland halophytic species 96

Jaanus Paal, Eli Fremstad, and Tõnu Möls Responses of the Norwegian alpine *Betula nana* community to nitrogen fertilization 108

Knut Rydgren and Geir Hestmark The soil propagule bank in a boreal old-growth spruce forest: changes with depth and relationship to aboveground vegetation 121

Susanne Simonsen and Øjvind Moestrup Toxicity tests in eight species of *Chrysochromulina* (Haptophyta) 129

Ørjan Totland Limitations on reproduction in alpine *Ranunculus acris* 137

Naida L. Lehmann and Rolf Sattler Polyaxial development in homeotic flowers of three begonia cultivars 145

Anne-Marie Mothe-Jean-Louis Dynamique pluriannuelle des hyphomycètes aquatiques de l'Osse, rivière réalimentée du sud-ouest de la France 155

W.A. Charlton The rotated-lamina syndrome. VI. The range from partial to near-complete rotation in Tiliaceae and Sterculiaceae 170

W.A. Charlton The rotated-lamina syndrome. VII. Direct formation of lamina in the rotated position in *Pterospermum* (Sterculiaceae) and the appearance of hyper-rotation 188

B. Prithiviraj, M. Manickam, U.P. Singh, and A.B. Ray Antifungal activity of anacardic acid, a naturally occurring derivative of salicylic acid 207

Note of appreciation iii

Note de reconnaissance iii
